December, 2000

## Merry Christmas To All Our Customers

Here at IWM we are reaping the results of a good show at coil winding 2000, NEC Birmingham. Although some areas of winding seem to be suffering under eastern imports, the demand for high quality winding machinery is still very alive. More often people are asking for quick set up machinery that is suited for fast turn around batch production and that is where the Wey Hwang range is well-suited.

## Why not celebrate the *NEW* year with *NEW* machinery This machine could be yours for only £32.50 per Week

If you need that extra bit of production but thought a new machine would cost too much, think again! Subject to status we are now able to offer you a chance to spread the cost of your machine. The example given above is the real price for a WH-764 machine (Specification shown below), however this method of payment can be used on almost any machine we offer.

If you are not sure call us today and we will be happy to provide a no-obligation quotation to your specific requirements.

The term of the agreement is three years and a small deposit will be required.

### IWM location move

Following factory relocation in early November we are now settling in at our new home with a wider range of machinery available from one supplier, it means there is virtually no winding task that we don't have a machine for.

The new facilities allow for a dedicated demonstration room. see new contact details overleaf for more details:-

### Key Specifications/Special Features:

- Digitally Programmable Automatic Winding Machine Model WH-764
- Number of spindles: 4
- Compliance: CE marked, Reg No: AE 9955093 01
- Spread motor: 4-phase stepper motor
- Main motor: 1/2 HP DC motor
- Turns: 0.1 ~ 9999.9 turns (or 1 ~ 99999 turns)
- Pitch: 0.01 ~ 9.999mm
- Memory capacity: 999 sequences / winding set-ups depending upon complexity.
- Wind width: 0.01 ~ 150mm
- Wire size: 0.02 ~ 0.8mm
- Winding Speed: 50~6,000 RPM
- Dimensions: 100 ( L ) x 67 ( W ) x 100cm ( H ), N.W.: 60KGS
- Available programming functions: Start point, wire size, spread width, turns, start acceleration, end slow down, edge stop, auto reset, auto start (slot-jumping wind)
- Full one year warrantee, delivery to your factory & one days training are all included.

## Please Turn Over Double Packed Issue

Registered in England No 00942059 V.A.T. No. 285 292 922

Directors: B.L.Spence (Chairman), P.R.Grainger (Managing), R.F.B. West, M.G.B. West

## Coil winding 2000-Stand B16.

IWM re-  
cently took part  
in Coil Winding  
2000, on stand was the latest  
technology, G-services S.A.  
launch the fastest air core  
machine with thermo com-  
pression welding for Tags  
and antenna coils.

The new range of Wey Hwang bobbin winders, with improved con-  
troller, CE compliancy and a range of Toroid winding machinery.

A good number of enquires were received making the event an over-  
all success despite what could have been considered a low turn out.

**How to reach us** Should you  
need any help, further information. or re-  
quire a demonstration, please contact us  
by any of the following methods or use the  
fax-back form below:

**Post:** IWM Ltd  
Unit 5L  
Delta Drive  
Tewkesbury Business Park  
Tewkesbury  
Glos. GL20 8HB

**Phone:** (01684) 273164  
**Fax:** (01684) 273171  
**Modem:** (01684) 273705

## Need a sample?

IWM offer an excellent core sampling service. From the bare core specification, we select the best equipment to use, wind some samples and return them to you together with example production times, quotation etc. we can then demonstrate the machine to get your production started at your premises at your convenience.

**All this is available to you absolutely free**
